

## PARRISH ART MUSEUM

### ART SUPPLIES FOR BARBARA THOMAS **STYLE IN PAINTING** WORKSHOP

FRIDAYS OCTOBER 9, 16, 23, 30, 10:30-1pm

Dear Students,

Please join our new workshop: How to Access Your Painting Style. We will experiment, discover different ways of expressing your ideas, new directions to try. And as always, looking at how to make colors, paint effects, and other problem solving. Please note that due to museum protocols, class begins at 10:30 rather than 10!

If you have taken class with me before, most likely you have all your supplies. Please check this list to be sure you have all the supplies you need. Experienced painters or those who have not taken class with me please note:

In our classes we use only six colors (including white), in order to experience and learn about color mixing and creating a palette. You only need to buy the colors indicated. You can choose to work in gouache watercolor or oil paint for this painting series.

Below is the full list of supplies from Blick Art Materials, website [dickblick.com](http://dickblick.com). You are welcome to buy supplies wherever you like, just please note the specific colors and materials we will work with. PLEASE do not buy paint sets! Waste of money. I am supplying you with the order numbers for [dickblick.com](http://dickblick.com).

This is the full array of supplies you will need: Easel, paints, palette, brushes, water container for gouache, or mineral spirits jar for oils, mineral spirits for oil, pencils, sketch pad, watercolor block for gouache, canvas boards for oil.

For this class which will take place in the theatre you don't necessarily need an easel, but if you would like to try one, see below. If you have one please bring to class.

- (OPTIONAL) Easels: I like Jullian half-box field easel #51588-1002. If you would like a slightly less expensive easel, try: Mabef field painting easel M- 27. If you don't want to get an easel you can paint on the table top.
- Gouache watercolor is a full- bodied water based paint that works transparent or opaque, depending on how you use it. It is very versatile, with rich hued pigments and a great painting texture. If you are wedded to transparent watercolor you can use these, but I much prefer you to work with gouache.

- Oil paint is pigment in an oil base, and needs mineral spirits to clean or thin down as opposed to water. If you are new to oil paint, please use gouache! We won't have a chance to go into detail on how to use oil paint in this workshop.
- Please note that I do not teach acrylic painting.
