General Guidelines for All Participants:

- There is no required theme, but the Parrish encourages works with a relationship to art on view in the Museum or in the Parrish collection.
- 2-dimensional work should be mounted on cardboard, foam core, paper, or matted and should be unframed. (No glass or plexiglass)
- Larger 2-D or 3-D work should be made in a modular fashion; this means it should be created, so it can be transported easily. Please measure your car or vehicle before deciding on the size of the project. Please also note that doorways to the galleries measure 40 inches wide.
- Make sure to clearly label artworks with school name, grade level, mediums, and student names for high school works. Also indicate the orientation of the piece.
- **None of the following materials are permitted: glitter, glass, materials which have been outside, natural materials (dried leaves, flowers, potted plants, twigs, etc.)**

Labeling:

Museum staff will create wall labels for each work. Labels will include title, school name, teacher name, project description (optional) and student names (if space allows). Please provide all label information with your registration and clearly label all submissions on the back.

***Exceptions and Special Considerations:**

Please reach out with your ideas and questions. The Museum is open to modifications to these guidelines if current conditions require. As always, the Parrish welcomes special projects that are planned in collaboration with education and installation staff.
